

### RS485 INTERFACE UPDATE

**J-NET-INT-485 Data-Loop network interface is going to be replaced by a new model CHAMELEON-485-DTLOOP.**

Main additions in new interface are the following:

- This new interface offers higher surge protection in order to mitigate as much as possible the negative impact of external voltage surges.
- Different form factor already in line with the upcoming range of addressable panels.
- Manual of previous version can still be accessed in [discontinued products](#) section while new version manual is available [here](#).

CHAMELEON-485-DTLOOP

For additional clarification please contact a local [distributor](#) or use our [contact form](#).
