

## PRESS RELEASE

22.12.2020

### GFE Odyssey XL Plus The updated software version

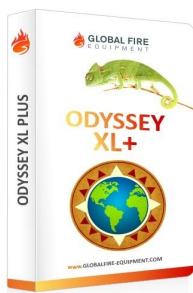

We are delighted to announce an updated version of our prestigious graphical supervision software Odyssey XLP. Now compatible with our new range of Chameleon addressable fire alarm control panels.

The Odyssey Graphics Display and Alarm Management System allows the connection of up to 64 panels to a PC, the compatible panels are namely OCTO+, GEKKO, NODE+, G-One, JUNO NET and JUNIOR.

**The main difference between Odyssey XLP and Odyssey XL V.05 is the compatibility with our new range of fire alarm control panels. Please note it isn't possible to migrate files from the previous software version, Odyssey XL V0.5 to Odyssey XLP.**

**Due to the new licenses structure scheme, licenses from previous versions are not compatible with the new Odyssey XLP version. Please contact our sales staff for more information.**

Please click [here](#) to download the new software version and know more about it.
